Projects

- **Notes Sharing Platform (Web Application) - Notobyte**
Designed and developed responsive and user-friendly UI layouts for a web application that allows users to upload, search, download study notes, and attempt interactive quizzes. Focused on creating clean navigation, intuitive user interfaces, consistent design elements, and a smooth user experience across different screen sizes.
- **Library Management System - Web Project (Team Based)**
Worked as a Frontend Developer in a team-based web project using HTML, CSS, and JavaScript to build a user-friendly interface for managing books, users, and issue/return records. Developed responsive web pages, implemented interactive UI components, and focused on improving usability and overall frontend experience.
